Do you recognize a pattern?

Does this set us on a new track?

What are your thoughts about "C"?

Is there anything that stuck you as

Could we explore further or comment

Anything in section "X" you would

Let us go through section by section.

Is there anything that is not clear?

Did not make sense to you?

Were there things in the data that

Professional Activities (EPA.5)

Immediate attention to patient's needs

Impact on patient safety or need

Are you aware of these things?

Particularly, envision that you cover

Stage 3: Phases and Strategies

Improvement

The opportunities suggested for
what the assessment data mean and
Goal for Resident to be clear about

Stage 3: Explore Resident Understanding

Stage 2: Explore Reactions to and

Stage 1: Build rapport and relationship

Social worker builds rapport, builds mutual respect

Communication, are heard and respected.

Goal for the Resident to feel

Explain the purpose to provide:

An opportunity to express their thoughts and
A chance to express their thinking and
Information about how they are doing;

Experiences:

Outline the agenda:

Determine the data that can present

Discussions of the data, and what it

Review performance data and steps:

Develop an action plan from the data;

Surprise:

What were your initial reactions?

What did you think you were doing?

Did anything at the report surprise you?

You feel more about that...

Stages and Strategies

Negative reactions/comments tend to be

Based on your reactions is there a
